Victims

Name: Arizonans

Type: Civil society

Email: JUDSONBAKER@GMAIL.COM

Telephone: (520) 338-8715

Address:
906 N. MILLER DR
TUCSON, AZ
85731

Describe the activities of the civil society organisation or association:
HUMAN RIGHTS SUBMISSION OUTLINE
TARGET MECHANISM: UN Special Procedures (Right to Health / Economic Impacts)

SECTION 1: IDENTIFICATION OF THE VICTIMS / AFFECTED CLASS
* **Affected Group:** Chronic pain patients and individuals experiencing systemic barriers to essential pharmaceutical care within the United States.
* **Specific Impact:** The systemic denial of necessary pain management medication over a prolonged period (e.g., 4+ years), resulting in severe physical suffering and a diminished quality of life.

SECTION 2: IDENTIFICATION OF THE ALLEGED PERPETRATORS / RESPONSIBLE ENTITIES
* **State Actor:** United States federal and state regulatory frameworks governing healthcare, corporate compliance, and pharmaceutical distribution.
* **Non-State/Corporate Actors:** Fortune 500 healthcare conglomerates, insurance networks, and corporate medical providers operating under rigid compliance structures.

SECTION 3: NATURE OF THE INFRINGEMENT (THE STRUCTURAL INSIGHT)
* **The "Compliance Bondage" Argument:** Domestic economic diversity and localized medical freedom are being heavily constrained by hyper-standardized global corporate frameworks (e.g., cross-border compliance with massive omnibus regulations).
* **The Shift in Medical Responsibility:** Regulatory and legal frameworks have altered the traditional doctor-patient relationship. Healthcare providers are now legally/financially accountable for systemic risks, forcing them into defensive medicine or absolute non-treatment. This shifts the focus from individual "patient care" to total risk-avoidance, striping individuals of bodily autonomy and personal responsibility over their own lives.
* **Human Rights Implicated:**
1. *The Right to the Highest Attainable Standard of Physical and Mental Health* (ICESCR Article 12 / Universal Declaration of Human Rights).
2. *The Right to Freedom from Cruel, Inhuman, or Degrading Treatment* (due to the systemic, forced withholding of pain management tools).

SECTION 4: DOCUMENTATION & EVIDENCE TO ATTACH
* Medical history documentation showing the sudden cessation of care or refusal to treat despite historical clinical success.
* Citations or examples of corporate healthcare policy shifts influenced by global financial compliance that restrict individual clinical decision-making.

SECTION 5: PROPOSED REMEDIES / ACTION REQUESTED
* Requesting the Special Rapporteur to issue a Communication to the State Party and relevant corporate entities regarding the human rights impact of over-compliance and the deprivation of essential pain medicines.

List the members of the civil society organisation or association, or its/their representative(s) (if relevant):
